REMARKS

Claims 1-5 are pending and active in the present application, all of which stand under Final rejection.

Claims 1-5 stand rejected under 35 USC §103 as unpatentable over Hata in view of Mostafazadeh and Luvini. The Examiner asserts that Hata discloses the invention substantially as recited in claims 1-5 but admits that Hata does not disclose a) that each individual substrate is covered with a respective case and b) that each substrate is sandwiched between top and bottom case segments.
